

K-Love serves my family and I as a positive alternative to the music that is being played on most stations. K-LOVE is the only radio station we listen to as far as music is concerned. I don't have to worry about the language or topics discussed by the DJ or the commercials being played. It would be a tremendous loss if we were to lose K-LOVE. Our children are being bombarded by music with awful lyrics about sexuality and violence everyday. We have to take a stand on what our children are listening to. We have a duty to protect them from what society believes is "Cool". Our society needs more radio stations like K-LOVE. I am writing you to ask you to please do not take K-LOVE off the air.
